I am a Senior Researcher in the Connected Intelligence unit at RISE. My research interests include computer networks, networked systems, and artificial intelligence. Before joining RISE, I was a postdoctoral researcher in the Network Systems Laboratory (NSLab) at KTH Royal Institute of Technology. I completed my doctoral studies in the same group under the supervision of Professor Dejan Kostić and Professor Gerald Q. Maguire Jr. During my doctoral studies, I improved the performance of Network Functions Virtualization (NFV) service chains by using **low-level optimization** techniques. ▶ Watch
